PROFESSIONAL SUMMARY

Backend Engineer specializing in **Java and Spring Boot microservices** with hands-on industry experience designing scalable REST APIs, event-driven systems, and production-ready backend architectures. Proven ability to deliver secure, containerized applications using Docker, RabbitMQ, and modern database systems. Strong focus on clean architecture, performance optimization, and real-world system reliability.

TECHNICAL SKILLS

Languages: Java, SQL
Backend: Spring Boot, REST APIs, Microservices Architecture, JWT Authentication, RBAC
Databases: PostgreSQL, MongoDB, MySQL
Messaging & Integration: RabbitMQ, Event-Driven Systems
DevOps & Tools: Docker, Git

PROFESSIONAL EXPERIENCE

Software Engineer Aug 2025 – Present
BrightIQ Solutions Rawalpindi, Pakistan

- Designed and developed scalable Spring Boot microservices powering enterprise-grade backend systems.
- Built secure REST APIs integrated with React frontends supporting real-time business workflows.
- Implemented event-driven communication using RabbitMQ, improving system decoupling and scalability.
- Applied clean architecture principles improving maintainability and reducing technical debt.
- Collaborated in Agile teams, participating in sprint planning, code reviews, and production releases.

Backend Developer Jun 2025 – Aug 2025
HA Technologies (Private) Limited Islamabad, Pakistan

- Developed Spring Boot backend services following microservices architecture patterns.
- Integrated RabbitMQ messaging pipelines reducing API response latency by approximately 40%.
- Optimized PostgreSQL and MongoDB queries improving data retrieval performance by 30%.
- Implemented JWT authentication and Role-Based Access Control (RBAC) for secure APIs.

Software Developer May 2024 – Feb 2025
EzTechTonic Rawalpindi, Pakistan

- Developed RESTful APIs using Spring Boot with relational database integration.
- Implemented secure authentication flows using JWT tokens.
- Worked within Agile Scrum teams utilizing Git-based collaborative workflows.
- Gained production experience in backend debugging, API testing, and database design.

SELECTED PROJECTS

Craftistan — Full Stack Marketplace Platform
Java, Spring Boot, PostgreSQL, React, Docker

- Designed a scalable e-commerce platform enabling artisans to manage products, orders, and users.
- Implemented modular backend architecture with secure authentication and optimized database schema.
- Deployed production-ready backend with containerized infrastructure.

BookBridge — Educational Exchange Platform
Java, Spring Boot, React, PostgreSQL

- Built a platform allowing students to buy, sell, donate, and exchange academic books.
- Developed chatbot-assisted communication system improving user interaction workflows.
- Designed REST APIs supporting scalable multi-user operations.

EDUCATION

PMAS Arid Agriculture University Rawalpindi, Pakistan
Bachelor of Science in Computer Software Engineering
